4. Once the processing of the application is completed, the applicant is called for an immigration interview. The processing time can vary from 8-12 months, depending on each individual visa office.
5. After the applicant passes the interview, he/she is given a letter that states that file is approved and he/she has to make an investment in Quebec (\$800,000 CD without loan or 120,000-180,000 CD with loan) within 110 days.
6. On making the investment, an approval document, known as CSQ (Certificate of Selection of Quebec) is issued to the applicant.
7. After this, a new application has to be submitted - with all supporting documents, visa fees and police clearance certificates, to the Canadian visa office in or nearest to the country of residence of the investor.
8. New file number is received from the Canadian visa office in 8-10 weeks time.
9. Once the application is processed, medical examination forms are received for the investor and all his dependents. This medical examination has to be completed within 90 days.
10. Once the medical and security clearance is complete, a request for passports is received in order to stamp the permanent immigrant visa.
11. The applicant is then required to travel to Quebec and land as an immigrant. He/She then applies for PR/Maple Card, Medical Insurance Card and Social Insurance Card. The applicant is eligible to apply for Canadian citizenship after three years of stay in Canada.

NOTE:

To maintain your PR, you need to stay for 2 years within a block of 5 years in Canada.

To receive citizenship, you need to stay for a period of 3 years in a block of 4 years in Canada.

Once they become landed immigrants, each family member needs to maintain his/her PR status
